DETAILED ACTION

1. This action is in response to an amendment filed April 16, 2004. Claims 2, 3, and 10-13 have been cancelled. Claims 14-20 have been added. Claims 1, 4-9 and 14-20 are pending.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1, 4-9 and 14-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Morlok. Note the disclosure of "...separate waters meters for hot and cold water..." for an apartment. The respective cold and hot water supply conduits 22 in fluid communication with water meters 20 are grouped in pairs and in a "...parallel relation.". The meters are disposed in an enclosure which includes a visual readout comprising a viewing window See column 6, lines 57+. The water meters are built together into one unitary assembly. Contrary to applicant's remarks, the patent to Morlok does not "...merely disclose a foamed encapsulation , for hygienic reasons, of the combination of a hot and cold water line, each with an in-line conventional meter... ", but rather clearly discloses a cold and hot water sources separately metered for each dwelling unit. The meters 20 for the hot water and for the cold water (Figure 1) "...are built together as a unitary assembly...". An assembly module 10 define such a unitary assembly. No remarks specific to any teachings not shown by Morlok to attempt to overcome the previous

rejection under **35 USC 102(b)** are discussed by applicants. No rejection under **35 USC 103(a)** has been made.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
